Adobe E-Sign – is used for the collection of information through means of online forms.

Microsoft 365 – One Drive is used for the storage of personal data, Microsoft Forms is used for some information by Section Leader, Outlook is used as an email system for the group and other Microsoft 365 applications are used where appropriate to support group administration and record keeping.

Sum-Up – is used for the collection of payments when OSM cannot be used for a variety of reasons, such as at a fundraising event.

Zeffy – is used for event registration and taking payments for fundraising events, and for other appropriate purposes that support the effective running of the group.

The relevant Data Protection Polices for these services can be found on their designated websites.

The Group may also use other trusted third-party services to collect and manage information where appropriate to support its activities. Participation in these systems is optional, and individuals may choose not to use them if they prefer; in such cases, alternative arrangements will be offered to ensure they can still take part in group activities.

In addition adult volunteers may hold some personal data on local spreadsheets/databases but this will be for a specific purpose, and will be deleted once no longer required in line with our data retention policy.

Printed records and data held while attending events - paper is sometimes used to capture and retain some data for example:

- Health and contact records forms (for events)
- Events coordination with event organisers

Paper records for events are used rather than relying on secure digital systems, as often the events are held where internet and digital access will not be available. We will minimise the use of paper to only what is required for the event.
